(860) 942-1997

**Technical Skills :**    **Frontend:** JavaScript, HTML, CSS, React, Angular, jQuery, Bootstrap, Git

**Backend:** Ruby on Rails, Firebase, Amazon Web Services, Alexa Skills Kit, Node.js, Python,

**Recent Work :**

**Freelance** | Frontend Web Developer and Designer | 2017 – Present

- Designed wireframes and [mockups](#) of responsive mobile UI using CSS, Bootstrap, and Media Queries
- Designed and built a [basic information website](#) for wide-range of devices using CSS, Flexbox, Media Queries, and Font Awesome
- Took on responsibility of registering domain names, configuring web hosting, and the deployment of websites for clients using GoDaddy

**Bloc** | Full-Stack Web Development Student | 2017 - 2018

- Built several web apps, including a [music-streaming app](#) and a [reddit-inspired forum app](#), using varying frontend and backend languages and stacks
- Designed and published [multiple Alexa Skills](#) using Node.js and Amazon Web Services
- Built and designed a [messaging app](#) using React, Firebase, and Flexbox as my capstone project

**Education :**    **Lesley University** | Double Major in Special Education & Global Studies | Magna Cum Laude | 2012-2015

**Bloc** | Full-Stack Web Development Program | 2017-2018

- Six month program to learn and apply fundamentals of full-stack web development. I worked alongside mentors on several projects utilizing different languages, frameworks, and libraries.

**Professional :**    **Various Restaurants** | Bartender/Server | 2016 – Present

- Worked full-time in multiple roles at restaurants in Boston-area while spending around 30 hours per week teaching myself Web Development through Team Treehouse and doing freelance projects

**John D. Runkle School** | Paraprofessional | 2015 - 2016

- Provided 1:1 support to students ages 6-10 in a program for students diagnosed with Autism Spectrum Disorder
- Collaborated with Special Education and General Education teachers to modify Reading, Writing, Social Studies, and Science Content

**Personal :**    Geolocation | Mobile Development | e-Education and e-Learning | Craft Beer | Podcasts | Dogs | Literature | Geography | US and World History
